Observing Children: Program Practices
What are the program practices which will encourage focused observations of the children in your program? How can you link your observations to developmental support for your children? Explore strategies to use when observing your children and learn how to connect your observations to the activities you provide in your program.

Call $20

Making Sense of Screen Time
Examine the use of various forms of technology, from television to tablets, in early childhood programs, how the use of screens impacts learning and development, and assists programs in developing and implementing developmentally appropriate practices for screen use.

34147 $20

Loose Parts: Child’s Play
Discover ways to enhance children’s creative play by using loose parts, such as seeds, pinecones, sand, rocks, leaves. Loose parts allow children to connect to their environment and empowers creativity. Come and find out how to incorporate loose parts play into your program.

34146 $15
