Welcome

Role and Work of the Committee

The Curricular Issues Committee's primary role is to review and approve new and revised courses and new programs. Each member is asked to represent their group and share information. If you cannot attend, you may send a proxy to vote in your place. Our current committee Guidelines are available on the Curricular Issues Committee Website <http://linnbenton.edu/cic-website>.

There was a lot of discussion of prerequisites, why we have them. It was brought up that some are old and do we really need all that are in place. The committee decided to take them back and have discussion with their own departments and divisions to start with. Lara said she could pull them all out of Banner and make a report to show all prerequisites and send it out.

There was also a lot of discussion on the AGS degree. Why students are choosing it, how many graduate with this degree each year and such.

A proposal was made, voted on and passed to look more into the AGS degree as well as prerequisites.

Next meeting November 2, 2018
